

An added note: KAUR has recently acquired a compact disc player. With the assistance of Budget Music and Video, we are proud to inaugurate the Wednesday Night Compact Disc Special, where a CD is played in its entirety. Next Wednesday at 10 p.m., Pink Floyd's classic album, "Dark Side of the Moon" will be played. If you've never heard a CD, tune in next Wednesday. The sound quality of these CD's are unbelievable!
